

Summary Team Meeting

May 15th 2017

Dear Solar Teams,

Thank you for your enthusiasm and input so far. We had a blast seeing you and getting to know all your ideas and thoughts at our Team Meeting in Almere. During the evening you experienced that questions were popping up like mushrooms rather than getting concrete answers. Our summary reflects the atmosphere of the evening and there is still room for discussion. To move forward we're eager to put together a Schippersraad and we would love you to join. Are you interested? Please let Lenny Bakker (TU Delft Solarbootteam) know through lenny.bakker@solarbootteam.nl

Summary

First of all thank you for all your input so far! Enthusiasm, sustainability and the drive to innovate were reappearing and common themes in our discussion at the Team Meeting, which suits us. We noted all your suggestions and will take them into account when making our final decisions.

The topics we deal with are all very closely connected just like your, our and the sponsors' interests.

We're currently working towards a formula in which all interests will meet in the best possible way. We want the solar boat races to flourish like never before. Let's get the most out of your solar panels!

Schippersraad

The head of our Technical Committee, Joris Melkert, is willing to help us out, invest time and listen to all your (additional) suggestions. But he and we are in need of an extra pair of hands.

Will you be our hero? Get in touch with Lenny Bakker (TU Delft Solar Boat Team) and send him your contact details through lenny.bakker@solarboatteam.nl. He'll get back to you as soon as possible and plans to arrange the Schippersraad kick-off meeting in Lelystad on the 9th of June.

Last but not least: We look forward to seeing you and your team in Lelystad soon! Be there or be square!

Best regards,
